When Mrs. Manchester saw the men they were carrying the suit case and the basket, nothing had been heard from her since. The police would not give out the name of the man who was seen there. They were in a suit case and a large basket. The girl is still at the home where she was supposed to go with the suit case and the basket. As the investigation into the mystery.

Family Cough Syrup

Here is given the most effective cough prescription known to the medical world. It is a mild laxative, too, and this is what a body needs when suffering with cough and cold on the lungs. A cough or cold causes pneumonia in the system, causing inflammation and congestion. Now all coughs, colds, and croup are relieved, but make the trouble worse by their stimulating effects. This prescription not only relieves quickly, but it cures any cough that is curable. Get one-half ounce fluid wild cherry bark, one ounce compound essence cardiot and three ounces syrup white pine compound. Mix in a bottle. Take for acute cough or bronchitis twenty drops every half hour for four hours. Then one-half to one teaspoonful three or four times a day. Give children less according to age. A few hours' treatment will cure and heal the throat and lungs of all but consumptive. Cut this out and give it to some friend who may need it to be saved from an early death by consumption.
